Welcome to EAZO Global Hackathon 2026

One idea.

24 hours.

A real product, live in the world.

No code required.

No deployment headaches.

Just build, ship, and let people use it.

You imagine it. Eazo builds it.

比赛规则COMPETITION RULES （1-2页ppt内）

1. Start with Imagination

Build from a real idea, a real need, or someone you care about.

2. Use Eazo Creator

All submissions must be created with Eazo Creator.

3. Ship a Real Product

Your app must be live, usable, and accessible — not a mockup, slide, or prototype.

4. Published on Eazo

Submit your app on Eazo so real users can open it, try it, and vote.

5. Make It Clear

Show who it's for, what problem it solves, and why it matters.

6. Submit Before the Deadline

Only products published before the official deadline will be counted.

You imagine it. Eazo builds it.

评分机制AWARDS & SCORING

1. Community Votes — 50%

Real users vote for the products they want to use.

2. Expert Judging — 40%

Judges evaluate clarity, originality, feasibility, track fit, and demo quality.

3. Peer Voting — 10%

Builders vote for the teams they respect most.

4. Real Use Matters

The best product is not always the flashiest — it's the one people understand, use, and remember.

5. One Team, One Highest Award

Each team receives the highest-level award they qualify for.

Build something people can actually use.

奖项

- SF Regional Award — \$22,000 Prize Pool

30 finalist teams will present live tomorrow. Twenty of these teams will share the \$22,000 regional prize pool.

- SF Special Award — \$30,000 Prize Pool

Open to teams that did not advance to the finals. Each qualifying team receives \$1,000.

5 Tracks CHOOSE YOUR TRACK (2页ppt内)

Pick a direction that fits your idea —or use these as prompts to find one.

1. Superparent

For modern family life, care, coordination, memory, and everyday invisible work.

Insight only. Don't let the track limit your imagination.

2. AI Companion

For focus, emotional support, daily guidance, neurodiversity, and personal companionship.

Insight only. Build what feels truly useful.

3. Life OS

For productivity, routines, planning, second brain systems, and helping people actually follow through.

Insight only. The best ideas may live between categories.

4. Body Intelligence

For health, fitness, self-awareness, habit tracking, energy, and understanding your body better.

Insight only. Use this as a starting point, not a boundary.

5. Wildcard

For ideas that do not fit neatly anywhere — but still solve something real.

No box required. Surprise us.

Tracks are directions, not limits.

Build what only you can imagine. (标注)
